Nyandeni Leadership unleashes strides towards realization of Developmental goals by appointing Resource mobilisers

Nyandeni Local Municipality leadership envisions a significant improvement in the provision of public infrastructure and public services, and a great increase in supporting the livelihoods of the people of Nyandeni.

Part of their long term developmental plan is a well-managed urbanization process where urban nodes will be linked by a good quality road network, well protected environmental assets, a growing, innovative, responsive and inclusive economy, focusing on Social and Economic Infrastructure, Agriculture and Agro processing, Tourism, commerce and manufacturing.

In an effort to realize the above, the municipality Council established a strategic Resource Mobilization Committee to provide guidance, expert advice, and innovative ideas on the implementation of the Nyandeni Local Municipality Vision 2032.

The committee is composed of 09 ambassadors who will assist in positioning Nyandeni Local Municipality as destination of choice, a reliable player and partner in trade and investment that can compete with the rest of the Municipalities across the province, country, and the world.

These ambassadors embarked on a walkabout across all the sites that have been earmarked for development by Nyandeni leadership.

These ambassadors are expected to mobilize stakeholders and resources for realization of the developmental plans through development of investment and a resource mobilization strategy that will guide the development.

The resource mobilizers will leverage existing networks and partnerships while identifying opportunities and possibilities of establishing new ones and facilitate generation of interventions and initiatives to overcome potential challenges and hurdles.
